

# ***WESTLAKE FIRE DEPARTMENT***

## **Evacuation Bus Routes and Stops**

---

Eanes School District Buses will follow the routes below or as directed by FD personnel to evacuate residents of the District during any emergency where it is the opinion of emergency management or city officials that residents are in immediate danger and must evacuate their homes.

The location, size and travel speed of the hazard will determine where we can safely enter to assist those who physically cannot leave their homes. The Incident Commander and Staff must make these decisions when more is known about the hazard.

Care must be taken to not endanger occupants on the buses. Making sure buses have safety zones, escape routes and egress will be critical before entry into the hazard area. The last thing we want to do is burn up a bus loaded with people.

One of the most basic wildfire positions will be critical for a successful evacuation. The Lookouts must be in positions where they can see the fire and report to the IC on its movement. Communications need to be clear and concise – there will be no room for mistakes. Following the Standard Wildfire Risk Management Process will help ensure nothing is overlooked and that safety is the first consideration.

Fire or Police Department personnel will use emergency loud speakers, sirens and other audible devices to request evacuation by the residents. The Fire Department Public Information Officer will contact the media to announce evacuation requests during radio and television broadcasts. If available, the Department will request that reverse 911 systems be used in the effected areas.

Most residents will have the funds to support themselves during any long term rebuilding of their homes. Those that do not will be assisted through the Department's Disaster Fund, Red Cross or (eventually) FEMA.

Buses will stop at the locations below and will also stop if flagged down by pedestrians. All occupants of the buses will be taken to Westlake High School for reunification with their family members.

Bus Stops will be marked with square green reflective markers in the streets. All stops will be at intersections.

The bus routes are divided into sections for easier emergency management purposes.

## Evacuation Bus Routes and Stops

### West Lake Hills

Bee Cave Rd / Red Bud Trail / Yaupon Valley / Laurel Valley / Terrace Mt / Westlake Dr

#### Bus Stops

Bee Cave Rd & McConnell  
Bee Cave Rd & Bluff Park Circle
